37 C.F.R. § 1.182 Petition for Appointment of Attorney By Less Than All Applicants

Pursuant to 37 C.F.R. § 1.182 and MPEP § 402.10, applicants Jerrold E. Franklin, Ph.D. and Eric S. Mettler ("Franklin and Mettler") hereby submit this petition seeking the appointment of Daniel P. Maguire (Reg. No. 41,506) as their representative in the abovereferenced applications (the "Applications").

Factual Background

There are four inventors named for the Applications: Jerrold E. Franklin, Ph.D., Eric S. Mettler, Muralidharan P. Arikara, and Lawrence R. Bawden, Jr. Franklin & Mettler *Decl.*, \P 1. When the Applications were filed, the four inventors were commonly employed by a company named PowerTek International "(PowerTek"), and they had no apparent internal conflict or divergence of interests. Franklin & Mettler Decl., ¶ 2. Through PowerTek, Howard M. Peters was appointed as the attorney for the Applications, and Mr. Peters represented the four inventors jointly. Franklin & Mettler Decl., ¶ 2. The inventors did not assign their patent rights to PowerTek. Franklin & *Mettler Decl.,* ¶ 2.

11 77:123

^{&#}x27;The "Franklin and Mettler Decl." is the Declaration of Jerrold Franklin and Eric Mettler in Support of Petition for Separate Counsel," filed herewith.

However, during summer, 2001 PowerTek started to cease operations, and each of the four inventors terminated their employment with PowerTek shortly thereafter. Franklin & Mettler Decl., ¶¶ 3, 4. As PowerTek was winding down its business, the four inventors discussed their future plans, and tentatively agreed to form a new company together. Franklin & Mettler Decl., ¶ 3. But immediately after they left PowerTek, Muralidharan P. Arikara and Lawrence R. Bawden, Jr. ("Arikara and Bawden") individually informed Franklin and Mettler that they did not want proceed with the new company, and planned to go their separate ways and each would seek independent employment. Franklin & Mettler Decl., ¶ 5. Subsequently, Arikara and Bawden then formed their own new company, known as Jadoo Systems ("Jadoo"). Franklin & Mettler Decl., ¶ 6. Franklin and Mettler also formed their own new company, known as Altergy Systems ("Altergy"). Franklin & Mettler Decl., ¶ 6.

The two new companies, Jadoo and Altergy, are both working on fuel cell technology, which is the general subject matter of the Applications. *Franklin & Mettler Decl.*, \P 7. It is quite likely that Jadoo and Altergy will be business competitors, and are certainly not working collaboratively any longer. *Franklin & Mettler Decl.*, \P 7.

Recognizing the conflict of interest, the representative for the four inventors, Howard Peters, is seeking to withdraw from representation on the Applications with the consent of Franklin and Mettler. *Franklin & Mettler Decl.*, ¶ 8.

The Need for Separate Counsel

Because the four inventors are no longer working as a team and are in fact business competitors, there are "good and sufficient reasons" why they should have their own legal representatives. MPEP 402.10. No single person could adequately represent all four inventors, because of their divergent interests. See 37 C.F.R. § 10.66.²

² Moreover, Franklin and Mettler would not consent to sharing a lawyer with the other two inventors, even if the rules allowed it. 37 C.F.R. § 10.66(c).

The parties' former representative, Howard Peters, has recognized the conflict and is seeking to withdraw with the consent of Franklin and Mettler. *Franklin & Mettler Decl.*, ¶ 8.

The MPEP recognizes that in certain cases a subset of inventors may appoint counsel representing only them, and not the other inventors. MPEP § 402.10. The present case is a classic situation justifying separate representation, since the four inventors have parted ways and started competing ventures. Franklin and Mettler want and have a right to their own counsel, and submit that the inability of any single person to represent all four inventors constitutes good and sufficient grounds to grant the present petition.

Therefore, Franklin and Mettler respectfully request that the USPTO accept the attached Revocation and Power of Attorney, appointing Daniel P. Maguire as their representative in the Applications.

Dear Sir or Madam:

Pursuant to 37 C.F.R. § 1.182, please find the following papers relating to the abovereferenced applications:

- Revocation of Power of Attorney and New Power of Attorney;
- Declaration of Jerrold Franklin and Eric Mettler in Support of Petition for Separate Counsel;
- Petition for Appointment of Attorney by Less Than All Applicants;
- Check for \$ 130.00; and

Acknowledgment Postcard.

Sincerely,

Daniel P. Maguire

PECENEL 1700 1700 Certification under 37 § C.F.R. § 1.8

I hereby certify that this transmittal letter and all the documents referred to as enclosed therein are being transmitted by U.S. mail to Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231 on February 6, 2002.

REVOCATION OF POWER OF ATTORNEY AND NEW POWER OF ATTORNEY

Application Nos.	09/834,389; 09/834,390
Filing Dates:	April 13, 2001; (both applications)
First Named Inventor:	Jerrold E. Franklin, Ph.D.
Group Art Unit	2833 (09,834,390 only at present)
Examiner Name	Felix Figueroa (09,834,390 only at present)
Titles:	Integrated and Modular BSP/MEA Manifold Plates for Fuel Cells; Compliant Electrical Contacts for Fuel Cell Use;

We hereby revoke all previous powers of attorney or authorizations of agent given in the above-identified applications, and we hereby appoint the practitioner named below as our attorney to prosecute the applications identified above, and to transact all business in the United States Patent and Trademark Office connected therewith. Please note that this appointment is made on behalf only of two of the four inventors named in the present applications, namely Jerrold E. Franklin, Ph.D. and Eric S. Mettler. A 37 C.F.R. § 1.182 petition is being filed in connection with this appointment.

Please change the correspondence address for the above-identified applications so that all correspondence for inventors Franklin and Mettler is sent to the practitioner identified below.

Declaration of Jerrold Franklin and Eric Mettler In Support of Petition for Separate Counsel

We, Jerrold E. Franklin and Eric S. Mettler, make this declaration of our own personal knowledge, and each of us could and would competently testify to these matters if called upon to do so:

- 1. We are named co-inventors in the above-captioned United States patent applications (the "Applications"), along with Muralidharan P. Arikara and Lawrence R. Bawden. ("Arikara and Bawden"). The general subject matter of the Applications is fuel cell technology. The Applications were both filed on April 13, 2001. These applications claim priority from provisional applications filed on November 17, 2000 (Ser. No. 60/249,662) and August 18, 2000 (Ser. No. 60/226,471).
- 2. When the Applications were filed, we were both employed by PowerTek International ("PowerTek"), as were Arikara and Bawden. There was no apparent conflict or divergence of interest between or among the four of us at that time. Therefore, through PowerTek, we had patent attorney Howard Peters, who handled our provisional patent applications, jointly represent all of us with regard to the Applications. Neither the Applications nor the subject matter underlying them were assigned to PowerTek.
- 3. However, during summer, 2001 PowerTek started to cease operations. As PowerTek was winding down its business, we had discussions with Arikara and Bawden concerning what each of us would do after leaving PowerTek. The four of us tentatively agreed

1

that after we left PowerTek we would work together and form a new company to capitalize on the fuel cell technology that we had been working on.

- 4. As of approximately September 21, 2001, PowerTek was no longer operating, and as of October 19, 2001, the four of us were no longer employed by PowerTek.
- 5. Immediately after we all terminated our employment with PowerTek, Arikara and Bawden informed us that they did not want go forward with the planned new venture, and that they planned to go their separate ways and seek independent employment.
- 6. Arikara and Bawden then formed their own new company, known as Jadoo Systems, LLC ("Jadoo"). We have also formed our own new company, known as Altergy Systems ("Altergy").
- 7. Our new company is working with fuel cell technology, including technology that would likely be covered by the Applications once they mature into patents. We also understand that Arikara and Bawden's new company, Jadoo, is working on fuel cell technology, and therefore it appears quite likely that the two companies will be business competitors. The companies certainly are not working collaboratively.
- 8. Howard Peters, the lawyer who had represented the four of us with regard to the Applications, is in the process of withdrawing from these matters with our permission. (See Exh. A hereto, Peters' Withdrawal Papers). We want our own counsel, to represent us separately from Arikara and Bawden. We do not believe it would be possible for us to jointly share a lawyer with Arikara and Bawden, given the plain conflict of interest between us and them.

We declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Jerrold E. Franklin, Ph.D.
